

Leigh Ann

9/17/04

One day Anjel, and I went to the moon. We looked down and every body in our class and every body in the school was down there. Mrs. Green the principle had a big sign that said, "GOOD-BYE GIRLS." We looked back down and Mrs. Green was crying. She said, "Our first two girls going up to space I sure am going to miss them." Thank goodness we had a phone and Mrs. Green had a phone in her hand so we called her. We said, "we are about to leave so if you want to you can make a announcement you can. So Mrs Green made a announcement she said, "Our two girls are about to leave so if you want you can say good bye be sure to yell very loud." I saw my family they where crying. The dock said, "10, 9, 8, 7, 6, 5, 4, 3, 2, 1 blast off." We said, "good bye to every body until we could not see them any more." When we

Saw some planets we knew we were
there. We got to the moon
when we got there we played
Agame. I was called wach the
tricks. We had a video camera
and we taped the moon of
what we did. Mrs Green had a
tv to show them what we did.
We gathered dust and got a
rock. The next day we had to
come home. Every body was
happy expecially Mrs. Green.
Was happy we made the trip
safe and sound.
